Disclaimers

This report is intended only for the report recipient (the entity to which the report is issued). Any reproduction, transfer, distribution, or other dissemination for use other than by the report recipient is strictly prohibited and could result in legal action.

This report is valid only if obtained by the report recipient through the EPIC Report Portal. ECFMG makes no claims about the authenticity of any Verification Report not obtained by the report recipient through the EPIC Report Portal. The use of the term "VERIFIED" indicates that ECFMG has authenticated a physician's credential as indicated in this report through ECFMG's primary-source verification process. This includes the authentication of the credential by the issuing authority, which ECFMG does not control. ECFMG does not guarantee, certify, or assure that such verification is accurate. ECFMG makes no recommendations or endorsements of physicians.

If the credential was submitted to ECFMG in a language other than English, the physician was required to include a certified English translation of the document. That translation, if applicable, is included for your reference; ECFMG does not verify the content of the translation and makes no endorsement of the agency or company that prepared the translation.
